STATINTL

STAT
STATINTL

1. Mr. Besterman of the staff of the House Judiciary Committee called to ask for the latest information on [redacted] by the Senate. In discussing this with Mr. Dulles he called Chairman Walter to discuss the matter with him and Mr. Walters informed Mr. Dulles that Mr. [redacted] name had been deleted from legislation.

2. Attended a meeting with Senator McCarran. See Memorandum for the Director this date.

3. Mr. Killea of State Department Intelligence talked with me concerning the inspection of the State Department by Mr. Albrook of Senator Case's staff. Mr. Albrook desired certain information regarding a classified figure project of State Intelligence which was in fact the NIS Program Personnel Figures. With Mr. Becker's approval, Comptroller had informed Mr. Killea that there would be no objection to his releasing those figures. Mr. Killea has now informed me that the agreement with Senator Case was that Albrook would receive no classified material and therefore the figures would not be released. I assured him that this was perfectly all right.
